Greetings from Electrocus Solution LLP

Dear Arvind Singh,

The following proposal will set a project road map from start to finish. You will have a complete understanding of the process and timeline for completion. And if you have any questions or concerns, please contact me personally.

Sincerely,

Rohit Kushwaha

We develop Web Dashboard and Android Application so you don't have to

We are living in the age of connectivity, and that means more things than ever before are right at your fingertips — literally. With one press of the button, one swipe left or right, you can open up new worlds in seconds. We're talking about apps, those little icons on your mobile device.

But at Electrocus Solution LLP, we don't just talk about apps; we live and breathe apps. We have assembled a team of the best and brightest minds in software development, marketing, and leadership, giving our clients access to the most cutting-edge technology. You can rest assured you're in good hands, as we have years of experience in both Android and iOS app development.

Our goal is to create something you're proud of and that helps your business. Apps can be transcendent, and they can also be colossal failures. That's why Electrocus Solution LLP, has developed a comprehensive approach to app development that takes the guessing out of the game. We're ecstatic that you're considering doing business with us, so let's get started.

Copy Right Policy: Copyright policy will be applied as per client requirements, But it will paid extra as per expanses.

What to Expect

Web Dashboard & Android development is serious business. It takes time and patience to create something that works for you and is free of bugs and other issues. Updates are required, but it's important to start with a sound foundation. At Electrocus Solution LLP, we believe in a thorough approach that provides our clients with as much engagement as they request. While our entire team will be developing your app, we will assign a project lead who will be your main point of contact.

Research and outreach

A large part of the work ElectroCus Solution LLP, does is behind the scenes. There will be times when we don't communicate with GlobeTech Creations Pvt.Ltd, but that's only because we're intimately involved in the development phase. However, before any of that begins, we need to make a checklist of everything you want in your new web dashboard.

Framework

Like a website, an app needs a sitemap and wireframes. Think of this as the structural integrity of a skyscraper. GlobeTech will have an important role in the design process, as it's important that you are getting what you want. Plus, it's better to work out issues in this stage than later down the road. Here are some highlights of this process:

- Functionality and content
- Wireframes, the structural core of your web dashboard.
- Branding and integration of existing digital platforms (i.e., web and email)
- User Experience and User Interface, or UX and UI — essentially, how you interact with the app, what makes it easy to use and desirable

Development

We've come a long way at this point. You've put in a lot of work, so now you can step aside and let us do the rest. This part of the process is laborious and time-consuming, so don't expect to hear from us much. But that's a good thing, as we've worked out all the kinks and come to an understanding about everything that will go into your new app. Once development is complete, GLOBETECH will be back in the fold for the testing trials.

Testing and launch

We're almost there. Your new dashboard is built and ready to launch. But before that happens, Electrocus Solution and Globetech need to collaborate on a marketing strategy. After all, just because you invested all this time and money into your new app, it doesn't mean anyone will know it exists unless we tell them.

Timeline

Electrocus Solution LLP estimates that it will take 49 days to complete your new web dashboard & Android Application upon signing this agreement, we can begin immediately. Here's what to expect:

Process	Delivery
Planning, Research/Outreach	1 week
Design	2 weak
Development	3 weak
Testing, Launch	1 weak

Special Notes:

1. Complete new Registration of Employee
2. Complete Provisional Acceptance

We'll trying to provide these two segments till 30th November.

Maintenance Clause

If there is any problem of any kind from the day the final delivery will take place, from that day all the problems related to be Web Dashboard Development (Php Laravel Language Framework) and Android Application will be solved at Immediate basis without any cost for one year by the developer side.

Expenses

We want GlobeTech to receive the utmost value from your investment in a new web dashboard & Android Application. This budget breakdown is based on the project outline described above. Please contact your project lead with any issues or questions before sign

Name	Price	Quantity	Subtotal
Web Dashboard Development (Php Laravel Language Framework)	90000/-	1	90000/-
Android Application	30,000/-	1	30,000/-
Total		2	120,000/-

Tax Excluded.

Recovery of Your existing Running Web Panel:

1-We'll export all the database of your running project and data import it in new Web Dashboard Development (Php Laravel Language Framework) and Android Application by developer side.

2- All the features and functions that are existing running web panel should also be given in the new Web Dashboard Development (Php Laravel Language Framework) and Android Application by developer side.

Payment Terms:

At least 10% Payment of That Project should be issued at the beginning of the project and 15% of the project should be issued after the completion of first task and remaining 25% of the project payment is after finishing second task, and last 50% Payments after the delivery of projects.

Agreement

By signing below, you agree to accept this proposal for new Web Dashboard development & Android Application with any modifications of web dashboard to enhance for better work performance which already agreed upon with Electroculus Solution LLP.
